

## KnowBe4-as-a-Service

Managed Service for Simulated Phishing and Security Awareness Training

**Primenet have partnered with Nuvias, the UK's leading distributor for KnowBe4, to provide you with a full management service, designed to make deploying KnowBe4 quick, easy, & hassle-free!**

Deploying KnowBe4 effectively doesn't need to take up valuable IT or administration resource. With KnowBe4-as-a-Service from Primenet, we help reduce workload and management time by providing support for installation, activating phishing services, analysing data, regular reporting and developing training programmes to address identified security risks.

## KnowBe4-as-a-Service from Primenet

**Fast set-up and launch** with full configuration and UAT Testing to get KnowBe4 up and running quickly.

**Create a long-term security awareness programme** defined by your organisational needs, managed by us.

**Plan Random and Targeted Phishing Attacks** to measure, monitor and report on how your teams respond to a random Phishing Attack

**Benchmark to compare your organisation's security awareness proficiency** scores and security culture scores with other companies in your industry.

**Enhanced Reporting, Reviews & Analysis** delivered by our specialist teams to ensure effective deployment and ongoing tracking over time.

**Track results and monitor ROI** as you watch your user scores improve overtime with proactive monitoring.

**Bespoke online training plan** developed in response to your Phishing test scores and identified security risks.

**Dedicated team** to manage your KnowBe4 platform, supported by the KnowBe4 Customer Success Manager providing regular consultation & feedback.

**Accredited managed service provider helps with compliance**, with extensive experience managing KnowBe4 deployments and ISO9001 & ISO27001 accreditations
